

## BAĞLAM

Mila and her classmates are preparing for their final school camp before graduation. The camp will take place in Cappadocia for four days. Students are organizing different activities such as trekking, photography contests and campfire presentations. Mila is especially excited because one of the items on her bucket list is taking a hot-air balloon tour. However, the weather forecast says there may be strong winds on the second day of the camp. Some students are worried that several outdoor activities might be cancelled. Despite this possibility, the teachers continue making preparations and encourage students to stay positive. Meanwhile, Mila has already started preparing a travel vlog to record every moment of the trip.
