

BAĞLAM

During the annual International Food Festival at Westbridge High School, students from different countries prepared traditional dishes and introduced their cultural eating habits. Emma and her friends represented Türkiye by cooking homemade gözleme and baklava for visitors. Before the festival started, they carefully prepared the ingredients, rolled out the dough and decorated their stand with traditional ornaments. Although the preparation process was exhausting, the group enjoyed explaining the recipes and serving food to international guests. At the end of the festival, many visitors stated that the Turkish stand was one of the most welcoming and organized sections of the event.
